

Certificate III in Business (Micro-business Operations)

The purpose of Certificate 3 in Business (Micro business Operations) is to develop an individual's competencies on how to manage and operate a micro/small business. It is developed to meet the needs of the micro, small and medium enterprise business sector (MSME Sector) to respond to the challenges that MSMEs face in managing and operating their business viably and the concerns they have about future business growth and success that could be addressed with skills development through training.
